**Introduction**

**Chapter 1:**

Overviews of Concepts..... 1

1.1 Overview of Orthopaedic Balance in the Equine ..... 1

1.2 Definition of Equine Orthopaedic Balance® ..... 3

1.3 Equine Neural Science..... 3

**Chapter 2:**

Equine Locomotion.....11

2.1 The Complex Distal Limb Architecture.....11

2.2 Automatic Movement.....20

**Chapter 3:**

Equine Balance.....23

3.1 What is Balance?.....23

3.2 Postural Balance.....23

3.3 Neurological Responses.....30

3.4 This new science is on the orthopaedic balance of the animal.....31

3.5 What Causes These Systems to Change?.....32

Equine Orthopaedic Balance®

**Chapter 4:**

Foot Balance affects the Equine Balance.....35

4.1 Accepting how signals from foot balance affect equine posture.....35

4.2 The Golgi Organ.....36

4.3 The principle of Connective Tissue.....37

4.4 The stress of tendon, ligaments and connective tissue.....39

4.5 Starting to pull it all together.....42

**Chapter 5:**

Orthopaedic Balance.....51

5.1 Orthopaedic Balance Considerations.....51

**Chapter 6:**

The Distal Equine Limb.....59

6.1 The Equine Foot.....59

6.2 Orthopaedic Balance Observation Strategy.....66

6.3 Assessing the Digital Cushion .....71

6.4 External Hoof Pathology.....71

6.5 Internal Hoof Pathology.....	80
6.6 Orthopaedic Trimming Parameters .....	84
6.7 Orthopaedic Trimming Basics.....	89
6.8 Hoof Conformation.....	94
6.9 Compromised Hooves.....	97

Equine Orthopaedic Balance®

Table of Contents

**Chapter 7:**

Neurological Examination and Responses.....	99
7.1 Neurological Examination and Responses.....	99
7.2 Neurological Responses.....	100
7.3 Introduction to the Equine Podiatric Analysis System.....	102
7.4 The Equine Podiatric Analysis System.....	102

**Chapter 8:**

The Architecture of the Equine Hoof.....	105
8.1 Arteries of the foot.....	105
8.2 Microarchitecture of the hoof wall.....	106
8.3 Layers of the hoof wall.....	106
8.4 Hoof wall growth.....	108
8.5 Abnormal structure.....	109
8.6 Hoof capsule flares.....	110
8.7 White line disease.....	111
8.8 Abscesses.....	113

**Chapter 9:**

Founder or Laminitis.....	117
---------------------------	-----

**Chapter 10:**

Navicular Syndrome.....	123
-------------------------	-----

**Chapter 11:**

Basic Orthopaedic Trim Principles.....	129
--	-----

Equine Orthopaedic Balance®

**Chapter 12:**

Advanced Orthopaedic Trim Principles.....	141
---	-----

**Chapter 13:**

Orthopaedic Shoeing Parameters and Principles .....	149
---	-----

13.1 Orthopaedic Shoeing Basics.....	154
--------------------------------------	-----

**Chapter 14:**

Radiographic Imaging and Diagnosis.....	163
---	-----

**Chapter 15:**

The Architecture of the Foal's Trim.....	171
--	-----

<b>Chapter 16:</b>	
Vision impairment in equines.....	181
<b>Chapter 17:</b>	
The Techniques of appropriate Tool Handling.....	185
17.1 Appropriate Hoof Knife Procedures.....	187
17.2 Appropriate Hoof Rasping Procedures.....	189
17.3 Appropriate Hoof Nipper Procedures.....	192
17.4 Appropriate Shoe Puller and Nail Puller Procedures.....	194
<b>Chapter 18:</b>	
Learning in the clinical environment.....	199
<b>Chapter 19:</b>	
Complementary Medicine.....	223
Equine Orthopaedic Balance®	
Introduction	
<b>Chapter 20:</b>	
The History of Equine Domestication.....	227
20.1 The History of the Equine Shoe.....	227
20.2 The Twenty-First Century Farrier.....	231
<b>Chapter 21:</b>	
Functional Human Neurology.....	235
<b>Chapter 22:</b>	
About the Author.....	245
<b>Chapter 23:</b>	
The Diagnostic Process.....	249
<b>Figure Credits:</b>	
Figure Credits.....	261
