

# Why Choose Us for Your Veterinary and Chiropractic Animal Certified Course?

Expert Training, Practical Skills, and Unmatched Support for Your Animal Care Career

## Leading the Way in Animal Care Education

Choosing where to undertake your veterinary and chiropractic animal certified chiropractic course is a big decision. At our institute, we offer a learning experience that sets you up for success, whether you're starting your career or looking to deepen your expertise in animal chiropractic care.

## Accredited and Recognised Training

Our courses are fully accredited through the BackBone Academy Australia. Our courses give you the confidence that your qualification is recognised internationally by organisations such as the International Veterinary Chiropractic Association (IVCA), the American Veterinary Chiropractic Association (AVCA), and Australia-wide. With a curriculum developed by industry professionals and international lecturers, you'll be learning the latest techniques, standards, and best practices for animal chiropractic care internationally.

Our course is a registered compact course, meaning you will have the best opportunity to fulfil your ambition of becoming an accredited animal chiropractor in a timeframe that suits your personal and work commitments.

## Experienced and Supportive Educators

Our trainers are not just educators—they're practising professionals with years of hands-on experience in veterinary, chiropractic, and equine biomechanical movement and hoof biomechanics, all essential to animal care. You'll benefit from their real-world insights, practical tips, and ongoing support throughout your studies.

## Comprehensive, Practical Learning

We believe in learning by doing. Our courses combine classroom theory with practical training, so you'll get hands-on experience working with animals in real-life scenarios. Ensuring you graduate job-ready and confident in your skills.

## Flexible Study Options

We understand life can get busy, so we offer flexible learning options, including online modules, in-person workshops, and blended study formats. Whether you're in the city or the bush, you can access our quality education at your own pace. After completing your online modules, you will be asked to attend our purpose-built premises in Birra, Queensland, Australia, where you will complete the final theory and practical components of the course, as well as your final acceptance examination.

## Ongoing Career Support

Our commitment to you doesn't end at graduation. We provide career guidance, advanced courses, networking opportunities, and access to job boards to support you as you launch or advance your career in the animal care field.

## Community and Connection

Join a community of passionate animal carers, veterinarians, and chiropractors. Our network and student forums encourage connection, collaboration, and lifelong learning.

## Australian Standards and Context

All our training is tailored for International and Australian conditions, species, and regulations. You'll learn with the context that matters most for working locally or internationally, including animal health legislation, workplace safety, and ethical considerations.

## State-of-the-Art Facilities

Our training centres feature modern facilities and the latest equipment, ensuring you have access to the best resources for your education. An air-conditioned classroom and a large undercover arena for the practical components of the course.

## Affordable Investment in Your Future

We're committed to making high-quality animal care education accessible, offering competitive course fees and flexible payment plans. Your investment in learning with us is an investment in a rewarding and impactful career.

## Ready to Take the Next Step?

Veterinarians, do you want to expand your treatment strategies and enhance your understanding of animal biomechanical locomotion?

Are evidence-based rehabilitation and skillsets a part of your clinical reasoning?

Now is the opportunity to enhance your business and personal careers by joining us in Australia and expanding your professional education in animal chiropractic therapy and rehabilitation.

We are reaching out to all veterinarians and Doctors of Chiropractic who would like to broaden their treatment opportunities or add value to their existing business. This course is the perfect platform for starting if you wish to take the next level in higher education.

If you're looking for a veterinary and chiropractic animal certified course that delivers quality, flexibility, and real-world preparation, we invite you to join us. Contact us today to learn more, enrol, or chat with one of our educators about your goals.
